Liggitt Appointed V.P.

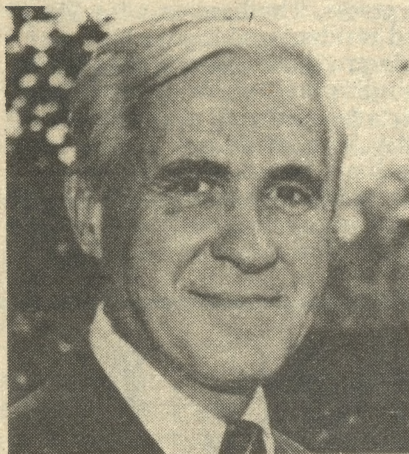

Appointment of Robert C. Liggitt of Spartanburg, S.C. as vice president for advancement at Salisbury State College, was announced by Dr. Thomas E. Bellavance, college president.

Liggitt, who has a broad background in college development and fundraising, comes to Salisbury State from his present position as director of development and assistant to the president of Converse College in Spartanburg.

The salary was not disclosed.

Bellavance said Liggitt's job is to provide leadership for the newly created division of college advancement, as well as have the responsibility for the planning and management of a comprehensive effort to attract private support to the college.

Liggitt will be assisted by the college directors of alumni relations, grants and public relations. In addition, he will be responsible for college relations with the public, including the community, new media, business and industry, government, private foundations and alumni.

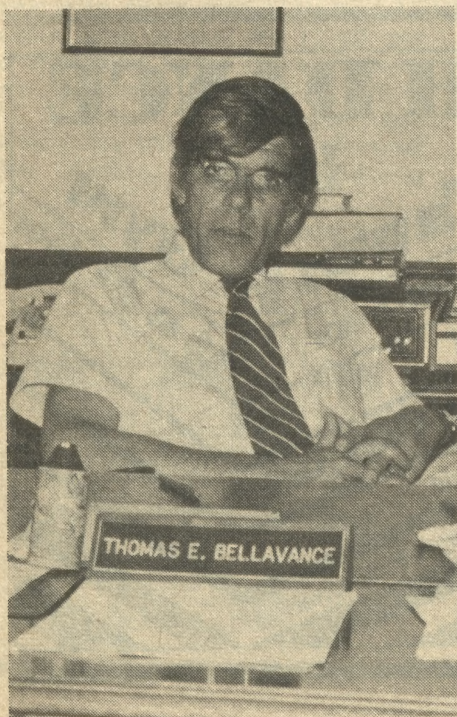

Robert C. Liggitt

Liggitt is a native of Pittsburgh, Pa., and graduated from Grove City, Pa., College, where he received a bachelor of science degree in business administration. Additionally he took advance courses in marketing and business administration at the University of Pittsburgh, and studied at the Philanthropy Tax Institute, and the American Academy of Fund Raising Service, both in New York City.

Enrollment Way Up

According to Salisbury State College President, Dr. Thomas E. Bellavance, the college is gearing up for what promises to be a record enrollment for the 1983-84 college year.

SSC President, Thomas Bellavance

"It appears that the record number of applications received in 1977 will be surpassed as our college continues to experience a great amount of popularity, he said.

In 1977, applications totaled 2,228 for the year. Already the figure this year is approaching 2,250. The total enrollment at Salisbury State in 1982-83 was 4,341.

Bellavance also announced that Salisbury State can now offer 35 academic scholarships. Twelve are merit scholarships, awarded through the Board of Trustees of the State Universities and Colleges. It is anticipated that 12 more will be established each of the next three years, at which time a total of 48 such scholarships will be maintained on a continuing basis, he said.

Bellavance said the average SAT score for the 12 merit scholarships averaged 1,200 and their scholastic record was better than 3.65 on a 4.0 scale.

Fifteen more \$1,000 academic awards will be established for one year. Another eight will receive awards, principally through the Salisbury State College Foundation, making a total of 35 this year.

Hundreds of anxious students filtered through Tawes Gym Tuesday hoping to rearrange their schedules. Drop-Add continues today through Tuesday, September 13.

Notes From...

The Dean of Students

Rights and Privacy

SSC will assume the right, under the provisions of the Family Educational Rights and Privacy Act, to provide student directory information without prior consent of the student. Directory information is defined as a student's name, local address (if listed), date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of an athletic team member, dates of attendance, degrees and awards received, most recent previous educational agency or institution attended, listing of officers of student organizations (including names and addresses).

In the event a student wants more or less than directory information released, please notify the Office of Dean of Students, extension 6080 or stop by room 243, Holloway Hall.

Health Center

This year a mandatory Health Center fee of \$15 is being charged to all full-time students. The fee is optional for part-time students. The part-time students not paying the fee are eligible for limited services only, including blood pressure and weight checks, emergency first aid, and health education-screening programs.

The initiation of this fee further necessitates that the Health Center staff direct all their expertise to student needs. Therefore, faculty and staff are requested only to the treatment of blood pressure

checks, weight checks, emergency first aid, and health education-screening programs.

Counseling Services

Mrs. Kathy Groutt, Counselor, has request and been granted a year's leave of absence to pursue doctoral studies. You will recall that in April monies planned for contractually filling this vacancy were "frozen". One result of reductions in profession counseling staff will be reductions in services to students, faculty and staff. Specifically, part-time students, former students, alumni, faculty and staff are not eligible for personal counseling. However, an information/referral conference may be scheduled by those seeking information regarding a personal concern.

Insurance

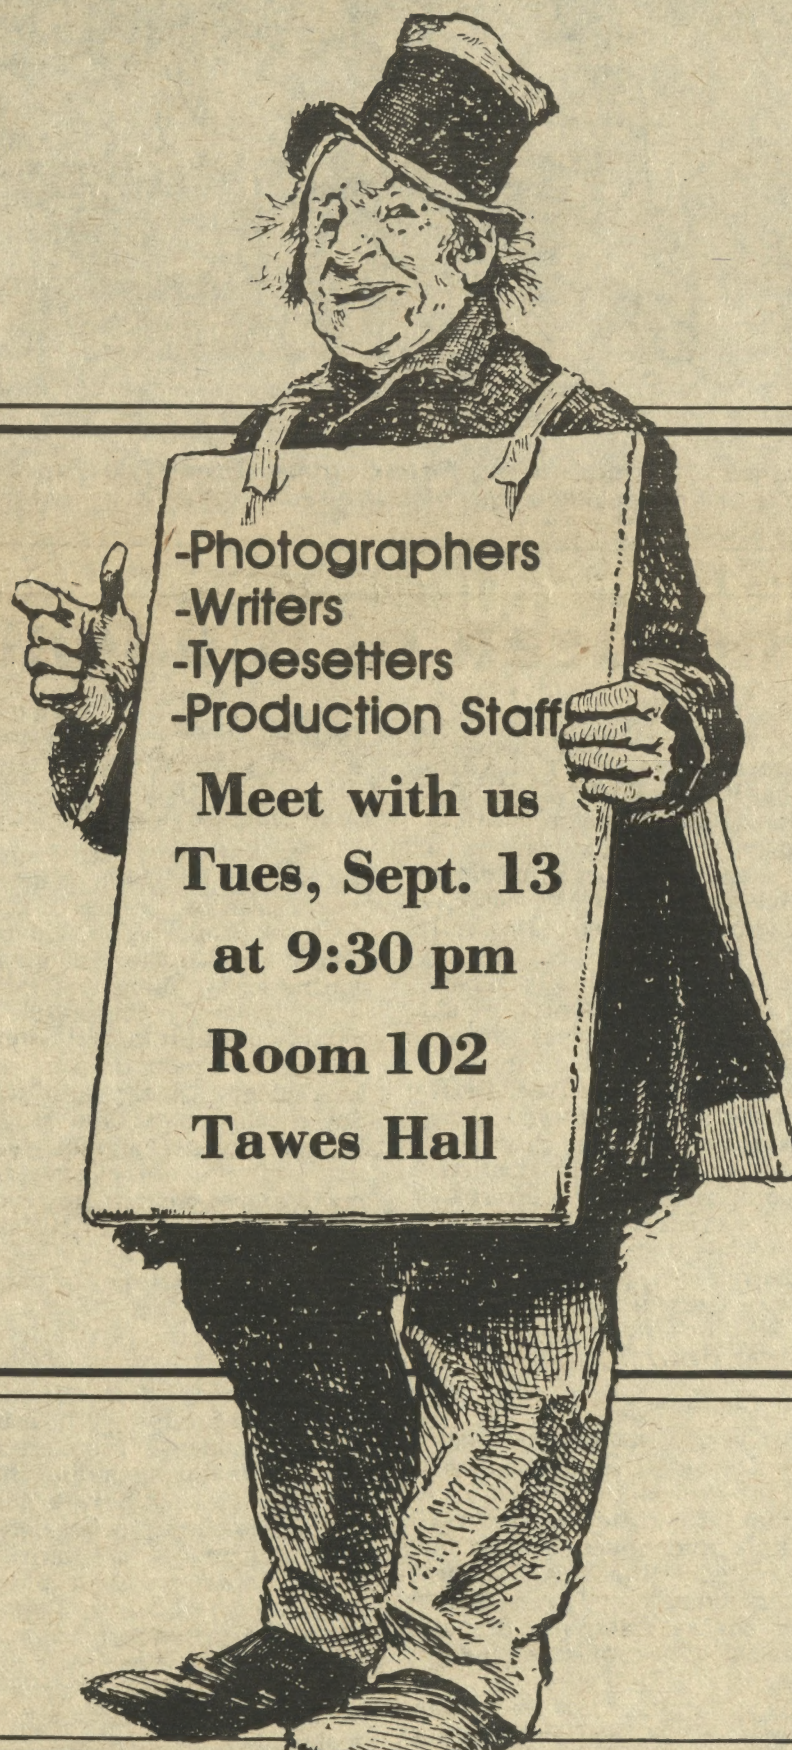

The College does not offer a designated group health insurance plan for students. There are several reasons for this including the fact that agencies nationwide in the business of group college student health insurance are unwilling/unable to offer a group plan because so few Salisbury State students have previously subscribed.

If you are not currently covered by an accident and sickness insurance policy, it is advised that you seek individual coverage through a local agent, employer, a parent or spouse policy.

London Courses Offered

"When a man is tired of London," Dr. Samuel Johnson observed in the 18th Century, "he is tired of life." Since contemporary London is still a thriving, exciting city rich in literary tradition, plans are currently underway at Salisbury State College to organize two courses of study abroad there during the January Term of 1984, according to Dr. Thomas L. Erskine, chairman of the English Department.

The courses, to be taught by Professors Erskine and J.M. Welsh, will concern British theatre, film, television, and society and may carry either six hours of undergraduate credit or three hours of graduate credit. The base cost for Maryland residents taking six hours of undergraduate credit will be \$995, including tuition, fees, travel, and two weeks lodging at the Grand Hotel, just off Russell Square in London's Bloomsbury district, near to the British Museum and the house where Charles Dickens lived out the final years of his career.

Dr. Erskine remarked that several years have passed since Salisbury State has sponsored courses abroad, and then only in summer, during the holiday season. The January Term courses will enable students to travel between regular semesters at the College, at a time when the rate of exchange is expected to work to the advantage of Americans abroad.

The groups will depart Salisbury on January 8 and return on January 21, after a week of orientation classes on campus. A limited number of reduced fares will also be available to Salisbury State staff and alumni who might want to take the trip on a non-credit basis, for approximately \$700. Those who wish to obtain additional information may call the English Department at 543-6445. Organizational meetings will be held on the Salisbury State campus during the week of September 12 for the benefit of anyone who may be interested in the trip.

Letters To The Editor

Dear Editor:

We would like to bring to your attention a series of events that occurred in "C" cluster of the 2nd floor of Choptank Hall, Salisbury State College. These are the events which occurred:

May 25—Peggy Robison moves into 2C1, she finds that all lights and electrical appliances would not operate when inserted into an electrical outlet. She then spends the night in her Spring 1983 room.

May 26—There is still no electricity in 2C1. Ms. Robison reports the electrical problem to a member of the housekeeping staff. (There were no Resident Assistants or Area Directors present.) This housekeeping member switches a circuit breaker off then on which allowed electricity to flow.

May 27—Ms. Robison wakes up and finds that none of her electrical appliances and lights would operate. She reports it to the Maintenance Department. A maintenance person informed Ms. Robison that an electrician would have to make the necessary repairs on Monday, May 30th. This maintenance person then ran an extension cord from the cluster bathroom into 2C1.

May 31—Hannah Taleu moves into 2C1 at 12 noon to find that electrical appliances would not operate when inserted into any electrical outlet nor would any lights operate. All means of electricity were still being supplied by an extension cord. At 2:30 pm the Area Director of Choptank and Chester Halls is being informed of the electrical problem. (This was the first time the Area Director has heard of the problem.)

June 1—The Electrician came and corrected the problem. Alas, there was electricity in the outlets and the light were working.

June 10—Ellen Womble and Marilee Durst spend the night (7 pm to 11 am) in their own rooms and notice that the lights flicker off and on, along with their refrigerators, televisions, and clocks. At 11:45 pm the flickering lights and appliances were reported to campus police. The campus police came and assessed the situation and informed Ellen, Marilee, Peggy, and Hannah

that they could not do anything about the problem. But that they would leave a message for the next shift to check the cluster periodically.

June 11—At 8:30 am Mary Lynn Kreiger wakes up and finds that none of her electrical appliances or her lights are working. At 9:25 am Marilee sees a puff of smoke coming out of where the ceiling joins the wall in her room. At 9:30 am, Ms. Robison, Ms. Durst and Ms. Taleu notice that the presence of smoke is evident. Campus police are called right away. They came and waited until an electrician was notified. Campus police then turned off the main power switch to the cluster. The electrician shows up at 2:30 pm. After he left there is electricity, but the flow of electricity in 2C4 and 2C2 is limited.

June 13—The electrician repairs the electrical problem throughout the entire day.
(Note: From the period of June 10 to June 12 the smoke detectors in all rooms were not operating.)

Each person pays \$37 a week to reside in their own room; so, we each should expect to have electricity at all times and running well. If the electrical problem was properly corrected on June 1st than there would not have been electrical problems on June 10th and 11th. In addition, all property damaged should be compensated by Salisbury State College due to an error by the electrician.

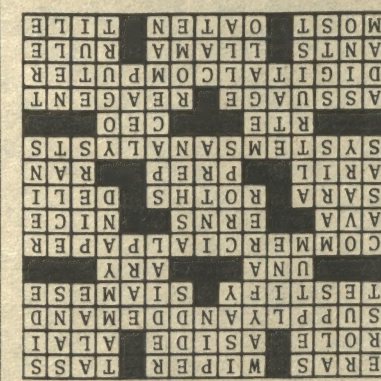

The Maintenance Department of Salisbury State College has been very unsympathetic and extremely slow to respond to our requests for repairs. Need we remind you that inoperable smoke detectors are unsafe even if only for 3 days. Surely, we as paying dormitory residents, deserve to have the electricity operating well. The events from May 25th to June 13th are true to our knowledge.

Thank you for letting us express our problems with you. We hope that something will be done.

Sincerely,

Sabrina Brown, Mary Lynn Kreiger, Jennifer Duell, Peggy Robison, Marilee Durst, Hannah Taleu, Charlene Harris, Mary Carol White, Cheryl Jackson, Ellen Womble
